The house got boring after the first week during the stay home order. I have been struggling to find work so that I can get out of the house.
FEMALE	18-29	NO	WHITE	EL PASO	HOMEMAKER	Other people have been greatly affected by this. I am not greatly affected, but my fellow Americans would be greatly affected because of the negligence of the government.
FEMALE	40-44	NO	WHITE	EL PASO	HOMEMAKER	Just uncertainty
FEMALE	50-54	NO	WHITE	EL PASO	HOMEMAKER	The fear is not as band as when the coronavirus first started in the US. The anger about the lack of government caring still continues, more so with polititions saying that the economy is more important than life.
FEMALE	60-64	NO	WHITE	EL PASO	HOMEMAKER	I stay at home a lot anyway so that part is not a hardship. I have sometimes felt frustrated not going to worship/church services or my Bible study. I miss seeing people in person and giving them a hug or a greeting. But I have plenty of things to keep me busy all day at home. Facetime with family has helped a lot.
FEMALE	60-64	NO	WHITE	EL PASO	HOMEMAKER	Feel isolated because I don't get out of the house and can't have my grandchildren over.
FEMALE	18-29	NO	WHITE	FREMONT	HOMEMAKER	I have been a little more discouraged and moody then normal.
FEMALE	30-34	NO	WHITE	FREMONT	HOMEMAKER	Havent been too affected personally.
FEMALE	60-64	NO	WHITE	FREMONT	HOMEMAKER	Not sure

MALE	65+	NO	AFRICAN AMERICAN	DENVER	DISABILITY	I was disgusted. The richest country is not prepared. The government has known about this pandemic 20 years ago, yet did not have back up plans and do not have a vaccine. They are not professionals.

REFUSED	55-59	YES	WHITE	PUEBLO	DISABILITY	I have been hearing about it day in and day out non-stop. It puts you on a depressed state of mind. However, it is not the end of the world, and then you see people wearing mask. The bottom line is that it is depressing.
FEMALE	65+	YES	WHITE	PUEBLO	DISABILITY	I'm just grouchy.
FEMALE	18-29	NO	WHITE	ADAMS	DISABILITY	Sad scared
MALE	50-54	NO	WHITE	ADAMS	DISABILITY	Everything is just about the same.
MALE	45-49	NO	WHITE	ARAPAHOE	DISABILITY	My mood and my mental health have not been affected by the coronavirus.
FEMALE	65+	NO	WHITE	ARAPAHOE	DISABILITY	It is difficult because you are all together more than normal. There is nowhere to go to do anything. You can't socialize with friends, except with the internet. Although it is helpful, it is not the best.
FEMALE	50-54	NO	WHITE	DENVER	DISABILITY	It is frustrating that I cannot go outside. We are unable to find the items that we need in the pharmacies and stores. Since I have COVID-19, it has been frustrating and depressing.
FEMALE	35-39	NO	WHITE	EL PASO	DISABILITY	I have been frustrated with the media and their lack of quality credible reporting on the coronavirus. They would rather play the blame game than look in the mirror and realize their loss of credibility the last few years lead to the pandemic being worse than it needed to. I do enjoy social distancing and hope that is here to stay - I have social anxiety disorder so that aspect has actually been a huge plus for me as it relates to leaving my house. I have been in a good mood overall because nobody wants to socialize and everybody gets to cover their faces. It is easier for me to leave and go out in public (only for essentials) than it has been at any time in my life.

FEMALE	50-54	NO	WHITE	EL PASO	DISABILITY	I have had some frustration, but as I was already used to being alone and already use delivery for many goods, I've done okay. I do worry about what will happen if/when I have doctor's appointments, as I have to take paratransit which is technically public transportation.
MALE	50-54	NO	WHITE	EL PASO	DISABILITY	I am mildly depressed.

FEMALE	60-64	NO	WHITE	MESA	DISABILITY	I am a cancer survivor, and I am awaiting for my pulmonary therapy and my physical therapy from my cop. We can't do any of those because I don't want to have the virus. In fact, it affects my daily life.
MALE	60-64	NO	WHITE	MESA	DISABILITY	It has interrupted our daily lives. Staying indoor is really hard. It changed everything we do.
FEMALE	50-54	NO	WHITE	OTERO	DISABILITY	I don't mind the stay at home my concern is even before this I could not get to my Dr for a blood test in order to. FEMALE	60-64	NO	WHITE	ROUTT	DISABILITY	It is very hard. i'm a bipolar person. With the depression, i'm having a hard time holding it together. It is either you are depressed or anxious. It is very hard for me. It is just bipolar, also known as manic depressive. Some people don't understand what bipolar is.
FEMALE	45-49	NO	WHITE	TELLER	DISABILITY	I have more anxiety because food is hard to find and cleaning supplies are hard to find. I am worried about my family catching the virus.
FEMALE	30-34	NO	WHITE	WELD	DISABILITY	I would say depression.
FEMALE	55-59	NO	WHITE	WELD	DISABILITY	I don't think it affected me at all directly.
MALE	55-59	NO	WHITE	WELD	DISABILITY	I get very, very sad and depressed when I hear on the news daily that more and more people have been infected, and more people have also died. I feel very, very worried that another "Great Depression" has begun, and that it would take years for all of us who survive to get back on our feet and rise again.
