Magellan Strategies

Healthier Colorado Summer 2025 Voter Opinion Survey Topline Results

Magellan Strategies is pleased to present the topline results of a survey of 675 registered voters in the State of Colorado. The interviews were conducted from May 29th - June 4th, 2025. The overall statewide survey has a margin of error of +/- 3.77% at the 95 percent confidence interval, and the Congressional District 8 survey as a margin of error of +/- 4.87% at the 95 percent confidence interval. The statewide survey data were weighted to be representative of Colorado's voter registration demographics, and the Congressional District 8 survey data is also weighted on voter registration demographics.

T1. For statistical purposes only, could you please tell me if you are registered to vote in Colorado as a Republican, a Democrat, an unaffiliated voter, some other party, or are you not registered to vote?

	State	CD08
Unaffiliated	49%	51%
Democrat	26%	24%
Republican	23%	23%
Other Party	2%	2%

T2. Following is a list of names of people involved in politics. After reading each name, please indicate if you have a favorable or unfavorable opinion of that person.

STATEWIDE	Total Favorable	Total Unfavorable	Heard Of, No Opinion	Never Heard Of	Very Fav	Somewhat Fav	Very Unfav	Somewhat Unfav
Jared Polis	47%	47%	3%	3%	18%	29%	30%	17%

Medicaid Questions

T3. How affordable is the cost of healthcare to you and your family?

	State	CD08
Total Affordable	49%	39%
Total Unaffordable	48%	57%
Unsure or No Opinion	3%	4%
Very Affordable	10%	11%
Somewhat Affordable	39%	28%
Very Unaffordable	28%	30%
Somewhat Unaffordable	20%	27%

T4. How familiar are you with Health First Colorado?

	State	CD08
Very and Somewhat Familiar Combined	35%	38%
Very Familiar	14%	17%
Somewhat Familiar	21%	21%
Not Too Familiar	18%	16%
Not Familiar at All	44%	43%
Unsure/No Opinion	3%	3%

T5. Do you have a favorable or unfavorable opinion of Medicaid, also known as Health First Colorado?

	State	CD08
Total Favorable	53%	53%
Total Unfavorable	24%	23%
Never Heard Of	3%	4%
Unsure or No Opinion	20%	20%
Very Favorable	28%	27%
Somewhat Favorable	25%	26%
Very Unfavorable	9%	10%
Somewhat Unfavorable	15%	13%

T6. Being as descriptive as possible, please describe why you have a favorable opinion of Medicaid. [Asked to respondents who answered Very or Somewhat Favorable]

STATEWIDE:

- **Provides Essential Access to Healthcare for Low-Income Individuals:** Respondents overwhelmingly cited that Medicaid helps people who otherwise couldn't afford healthcare—especially the poor, uninsured, and those without employer-provided coverage.

- **Personal or Family Benefit:** Many shared direct experiences of how Medicaid helped themselves, their children, elderly parents, or relatives with disabilities, often describing it as life-saving or vital during hard times.

- **Supports Vulnerable Populations**: There was strong appreciation for how Medicaid serves children, seniors, people with disabilities, single parents, and those on fixed or limited incomes.

- **Healthcare is a Human Right or Moral Obligation:** Numerous responses framed Medicaid as part of a just society's duty—arguing that a wealthy nation should ensure healthcare for all and viewing Medicaid as a step toward that ideal.

- **Offers Financial Protection and Reduces Medical Debt:** Respondents emphasized that Medicaid helps prevent bankruptcy from medical bills and reduces out-of-pocket costs, which allows individuals to focus on recovery and well-being.

CD08:

- **Access to Healthcare for Low-Income and Vulnerable Populations:** Many respondents emphasized that Medicaid is critical for people who cannot afford healthcare otherwise — including the poor, elderly, disabled, children, and working-class families. They highlighted that without Medicaid, these individuals would either go without care or rely on emergency services at a higher cost.

- **Personal or Family Experience with Medicaid:** A large number of respondents shared personal stories or referenced loved ones who directly benefited from Medicaid. These testimonials covered survival from serious illnesses, access to life-saving medications, support during job loss or pregnancy, and help for disabled children or elderly relatives.

- **Belief in Healthcare as a Human Right or Public Good:** Respondents expressed strong philosophical and moral support for Medicaid, often stating that healthcare should be a right, not a privilege. Many called for expansion toward universal or single-payer systems and described Medicaid as a step in the right direction.

- **Cost Savings and Preventative Care:** Several participants noted that Medicaid reduces overall healthcare costs by preventing people from waiting until emergencies to seek care. It was also seen as a way to prevent medical debt and financial ruin.

** The complete verbatim responses are in a separate document.*

T7. Being as descriptive as possible, please describe why you have an unfavorable opinion of Medicaid. [Asked to respondents who answered Very or Somewhat Unfavorable]

STATEWIDE:

- **Abuse and Fraud in the System:** Many respondents expressed frustration that Medicaid is being misused by people who are not truly in need—particularly those they described as able-bodied individuals who choose not to work, or those committing fraud. Concerns about systemic abuse, lack of accountability, and "gaming the system" were frequent.

- **Benefits Provided to Non-Citizens or Undeserving Recipients:** A significant number of respondents objected to Medicaid being available to undocumented immigrants or people they felt were not contributing to society. This theme often overlapped with resentment about perceived unfairness in eligibility and access.

- **Unfair Burden on Taxpayers:** Many individuals were upset that hardworking taxpayers are footing the bill for a program they view as inefficient, overly generous, or mismanaged. Some described Medicaid as a "handout" or "communist" and felt it contributes to higher taxes or wasteful government spending.

- **Poor Quality, Limited Access, or System Complexity:** Respondents criticized Medicaid for having few participating doctors, long wait times, low-quality care, red tape, and confusing enrollment or eligibility systems. Some shared personal stories of being denied care or having a negative experience with access or customer service.

- **Disincentives to Work or Self-Sufficiency:** Several responses argued that Medicaid discourages work and self-reliance by creating a system where people are incentivized to stay unemployed or underemployed to remain eligible. Some called for work requirements or more stringent eligibility enforcement.

CD08:

- **Abuse and Fraud in the System:** Many respondents expressed concern that Medicaid is being misused by individuals who they believe are not truly eligible — including able-bodied people who choose not to work, or people who "game the system." Perceived lack of oversight and accountability was a recurring point.

- **Medicaid Provided to Undocumented Immigrants:** A dominant theme — especially among Republican and unaffiliated respondents — was anger or frustration over Medicaid being used for undocumented immigrants. Many said Medicaid should only be for U.S. citizens or legal residents, with some calling for stricter eligibility enforcement.

- **Taxpayer Burden and Inefficiency:** Respondents frequently criticized Medicaid as a financial burden on taxpayers, citing inefficiencies, government mismanagement, and high costs. Several referenced general distrust of government-run programs or believed Medicaid incentivizes dependence on public support.

- **Barriers and Inequities in Access:** A number of respondents — especially those with personal experience — reported frustration with *inaccessibility*, restrictive eligibility, or unfair implementation. These comments often reflected dissatisfaction with how benefits are distributed or the quality of care.

** The complete verbatim responses are in a separate document.*

T8. How important, if at all, is Medicaid for people in your local community?

	State	CD08
Very and Somewhat Important Combined	77%	72%
Very Important	53%	50%
Somewhat Important	24%	22%
Not Important at All	6%	6%
Not Important at All	4%	4%

Vaccine Policy

T16. Thinking now about vaccinations...in general, how confident are you that vaccinations are:

STATE	Somewhat/Very Confident	Very Confident	Somewhat Confident	Not Too Confident	Not Confident at All	Unsure/ No Opinion
Safe	72%	52%	20%	12%	14%	2%
Effective	76%	51%	25%	11%	12%	1%

CD08	Somewhat/Very Confident	Very Confident	Somewhat Confident	Not Too Confident	Not Confident at All	Unsure/ No Opinion
Safe	65%	46%	19%	16%	18%	1%
Effective	69%	46%	23%	15%	15%	1%

T17. Being as descriptive as possible, please describe why you are not confident that vaccines are safe. [Asked to respondents who answered Not Too Confident or Not Confident at All to T16.]

STATEWIDE:

- **Concerns about COVID-19 vaccine safety and side effects:** Many respondents cited personal or secondhand experiences with adverse effects from COVID-19 vaccines, including blood clots, heart issues, or even death. Several expressed that the COVID vaccine was rushed or inadequately tested.

- **Distrust in pharmaceutical companies and government agencies:** A recurring theme was the belief that pharmaceutical companies prioritize profit over safety and are not held accountable for vaccine-related harm. Respondents also cited distrust of the CDC, FDA, and politicians, believing these institutions are politicized or corrupt.

- **Lack of long-term research and transparency:** Numerous comments referenced insufficient testing, lack of long-term data, and perceived suppression of information. Respondents felt the public wasn't given full disclosure about risks, especially for new vaccines like mRNA.

- **Opposition to mandates and perceived loss of medical freedom:** Many respondents expressed anger over being forced or pressured to get vaccinated, sometimes referencing job loss or government overreach. This was often framed as a violation of personal rights or freedoms.

- **Beliefs in vaccine-related harms (e.g., autism, toxic ingredients):** Some respondents mentioned concerns about ingredients in vaccines (like preservatives or metals), links to conditions like autism, or overall skepticism about giving multiple vaccines to infants or children.

CD08:

- **COVID-19 Vaccine Distrust and Lasting Impact on Overall Vaccine Confidence:** A dominant theme was that the rollout and perceived outcomes of the COVID-19 vaccine significantly eroded trust in all vaccines. Many referenced side effects, rushed approval, or anecdotal experiences of harm as evidence that vaccines are unsafe.

- **Distrust in Pharmaceutical Companies and Government:** Respondents frequently expressed skepticism toward the motives and transparency of pharmaceutical companies, the CDC, FDA, and government officials. Many said vaccine producers prioritize profit over safety and that public health institutions are corrupt or untrustworthy.

- **Concerns About Vaccine Safety, Testing, and Ingredients:** Many cited lack of long-term testing, unfamiliar or harmful ingredients, and inadequate disclosure of data. Some believed vaccines are insufficiently studied, rushed to market, or linked to harmful effects like blood clots, autism, or autoimmune responses.

- **Belief in Natural Immunity or Opposition to Mandates:** A notable segment rejected vaccines on philosophical or personal grounds, often citing preference for natural immunity or objecting to mandates and perceived coercion. Some also expressed religious or libertarian beliefs about bodily autonomy.

** The complete verbatim responses are in a separate document.*

T18. Do you believe that vaccines cause autism in children?

	State	CD08
Total Yes	18%	23%
Total No	69%	62%
Unsure or No Opinion	13%	15%
Yes, Definitely	7%	7%
Yes, Probably	11%	16%
No, Definitely Not	54%	50%
No, Probably Not	15%	12%

Social Media Questions

T19. Do you agree or disagree with the following statement? *There is a growing mental health crisis facing children and youth in Colorado.*

	State	CD08
Total Agree	90%	88%
Total Disagree	6%	7%
Unsure or No Opinion	4%	5%
Strongly Agree	62%	62%
Somewhat Agree	28%	26%
Strongly Disagree	1%	3%
Somewhat Disagree	5%	4%

T20. Do you believe that social media has had a positive, neutral, or negative impact on the mental health of youth in Colorado?

	State	CD08
Total Positive Impact	4%	6%
Neutral	4%	5%
Total Negative Impact	90%	87%
Unsure or No Opinion	2%	2%
Very Positive Impact	2%	2%
Somewhat Positive Impact	2%	4%
Very Negative Impact	58%	58%
Somewhat Negative Impact	32%	29%

T21. As you may know, the state legislature recently passed legislation that places requirements on social media companies to prevent the negative mental health effects on youth caused by their platforms, like Facebook, Instagram, TikTok, and Snapchat.

The bill requires the social media platform to display a notification for users under the age of 18 every 30 minutes after the user has spent one hour on the platform in a 24-hour period or is on social media between the hours of 10 pm and 6 am. Knowing this, do you support or oppose this legislation?

	State	CD08
Total Support	69%	65%

	State	CD08
Did Not Complete High School	1%	2%
Graduated High School	12%	16%
Attended Technical or Vocational School	7%	11%
Attended Some College, No Degree	14%	23%
Associate's Degree, Graduated Two-Year College	12%	11%
Bachelor's Degree, Graduated Four-Year College	34%	27%
Obtained Masters, PHD, Professional Degree	19%	10%
Refused	1%	0%

Survey Methodology

The interviews for this survey were completed by sending an MMS text message to Colorado voters inviting them to participate in an online survey. The statewide survey data were weighted to be representative of Colorado's voter registration demographics, and the Congressional District 8 survey data is also weighted on voter registration demographics. The interviews were conducted from May 29th – June 4th, 2025. This overall statewide survey has a margin of error of +/- 3.77% at the 95 percent confidence interval, while the Congressional District 8 survey has a margin of error of +/- 4.87% at the 95 percent confidence interval.

Table 25

T21. As you may know, the state legislature recently passed legislation that places requirements on social media companies to prevent the negative mental health effects on youth caused by their platforms, like Facebook, Instagram, TikTok, and Snapchat.
The bill requires the social media platform to display a notification for users under the age of 18 every 30 minutes after the user has spent one hour on the platform in a 24-hour period or is on social media between the hours of 10 pm and 6 am. Knowing this, do you support or oppose this legislation?

Table 25

T21. As you may know, the state legislature recently passed legislation that places requirements on social media companies to prevent the negative mental health effects on youth caused by their platforms, like Facebook, Instagram, TikTok, and Snapchat.
The bill requires the social media platform to display a notification for users under the age of 18 every 30 minutes after the user has spent one hour on the platform in a 24-hour period or is on social media between the hours of 10 pm and 6 am. Knowing this, do you support or oppose this legislation?

Table 25

T21. As you may know, the state legislature recently passed legislation that places requirements on social media companies to prevent the negative mental health effects on youth caused by their platforms, like Facebook, Instagram, TikTok, and Snapchat.
The bill requires the social media platform to display a notification for users under the age of 18 every 30 minutes after the user has spent one hour on the platform in a 24-hour period or is on social media between the hours of 10 pm and 6 am. Knowing this, do you support or oppose this legislation?
